A MULTI AFTER YOUR OWN HEART...

This innovative heart-healthy, multi-vitamin/mineral formula was designed with a special focus on heart health while also supporting general health and wellness.

A Message from Cardiovascular Surgeon, Dr. Frederic Vagnini, M.D., FACS

“Homocysteine, which is a toxic amino acid when elevated, is a leading additional risk factor for heart attack, stroke, and Alzheimer's disease. Res-Q® Multi contains the necessary vitamins and other elements to reduce the harmful effects of elevated homocysteine including B6, B12, folic acid, and garlic.

Additionally, there is also a focus on controlling blood pressure and regulating heart rhythm and beats. Garlic has additional effects of helping lower cholesterol and has been one of the most researched nutrients in the area of nutrition with multiple health benefits.”

If you're looking for the most complete multi-vitamin for your heart, you need to try Res-Q® Multi.
