

**Suggested Use:** Adults take 2 caplets once daily, preferably after a meal.

The açai berry found in the Amazon rainforest is readily absorbed into the body. The açai berry is naturally rich in polyphenols and anthocyanins, two of nature's most potent antioxidants. These help fight free radicals that can damage healthy cells. Res-Q Mega Açai also contains pomegranate and green tea extract for the ultimate super supplement. \*\*

† ORAC, which stands for Oxygen Radical Absorbance Capacity, is a new standard of measurement jointly developed by the National Institute on Aging and the USDA Human Nutrition Research Center on Aging. ORAC measures how well a food or drink renders free radicals inactive.
