

Today's diet is too frequently high in saturated fats, trans fats, chemicals, food additives, toxins, and simple sugars which can cause an imbalance of the bacteria in the digestive tract. Not having enough "good" bacteria in the digestive system can lead to occasional digestive upsets and may lower your body's resistance to infection and diseases. Res-Q® ProBiotic formula helps restore that balance naturally while improving your intestinal health.**

- Just one capsule a day:
- promotes a clean, healthy intestinal tract**
 - reduces constipation**
 - strengthens the immune system**
 - normalizes bowel movements**
 - inhibits yeast and fungal infections**

Suggested Use: Adults take 1 capsule daily or as needed.
